Looking for that extra touch?

Castle Line is a proud global player, at home in many markets. But did you know that our story started with simple woven baskets back in 1976? Our founders' keen eye for trends and distinctive design transformed Castle Line into the leading Belgian furniture specialist you know today.

Castle Line at its core has remained the same throughout the years. Just like when we first began, we want to create added value by offering furniture with that extra touch. Perfect for those looking for creativity and quality.

Inspiring people with original collections is why we do this.

Meet the designer

Cas Moor

✶
JOURNÉE

Cas Moor knew he wanted to become an inventor from an early age. His curiosity about the way products come together led him to the field of design. His unique perspective on practical design is fuelled by his knowledge of materials and production.

With his strong education and distinctive design philosophy, Cas has established himself as an independent designer. He collaborates with companies globally and brings a personal touch as well as intersectoral expertise to each project. His design process is based on the firm belief that it is not just about creating a product. It's about the materials, the making of and understanding the end users. The details make all the difference. For Cas, the material and craftsmanship serve the form and tell a story in doing so. This results in products that are truly meaningful.

*“The true measure
of a design’s success is its
ability to remain
impactful even when
distilled to its
purest form.”*
